South Carolina Human Services Providers Association (SCHSPA)

WEBINAR SERIES ANNOUNCEMENT

We are pleased to announce that SCHSPA will be sponsoring a series of webinars for stakeholders, including providers, case managers, families and State partnering agencies. These webinars will lay the groundwork for a better and broader understanding of the possibilities of Enabling Technology and Remote Supports for South Carolinians with Intellectual Disabilities/ Related Disabilities , Autism Spectrum Disorder, Similar Disability and Head and Spinal Cord Injuries.

These webinars will offer insights into the national Technology First (Tech 1st) movement and framework, and include steps agencies can take as they prepare to embrace Technology First.

Presentations will focus on where people live, work and recreate. Attendees will learn about a wide range of devices and technologies, in-

SCHSPA Webinar Series

September 10, 2024: KICKOFF: How agencies transform their culture to become a Tech 1st Organization using Person Centered practices, policies and transformative thinking.
This is an overview of the Tech 1st/enabling technology movement and practices to include what requirements an agency needs for a Tech 1st culture to include the Introduction of a Technology Toolkit.

October 8, 2024: Introduction to Enabling Technology and Remote Supports
This is an overview of what enabling technology solutions are available to include an introduction to the use of remote supports.

November 12, 2024: Enabling Technology at Home Primer
This will be an introduction of technical devices individuals can have in their homes to promote independence and assist with maintaining their health. The presentation will discuss how having tech in one's home does not mean they have to lose their privacy.

December 10, 2024: Enabling Technology & Inclusion: My Home, My Health, My Privacy, My Safety
This session will outline the use of Tele-Health technologies to enhance the physician/patient experience with the intention of improving health outcomes utilizing a HIPAA compliant platform. Additional health tools will be explored to increase independence in assuring health outcomes.

January 14, 2025: Enabling Technology & Inclusion: My Community and My Job
This session will look at technologies available to assist in job coaching, using technology to assist individuals with disabilities in getting and maintaining employment and explore various technologies to assist individuals to safely and independently access and participate in their communities.
